

1st October 2021 • International Day of Older Persons

DIGITAL EQUITY FOR ALL AGES

FERPA shares the goal of digital equity for all generations.

Digital and technological innovation can improve the quality of life and independence of older people and create good new jobs for young people. But it must be age-friendly.

Technology must improve life, not complicate it!

We need targeted training, with specific courses to encourage intergenerational exchange.

Older people must not be left behind!
